EXPERIENCE

Ignite KY — Co-Founder, Project Lead Developer

Web Design Agency — March 2022 - Present

- Implemented a developer-centric workflow strategy, streamlining development and deployment processes.
- Developed multiple customizable and reusable components, significantly reducing website development time.
- Created a dedicated service to expedite form submission delivery, enabling direct access to client email inboxes.
- Developed GSAP-powered animation utilities for seamless and stylish website interactions.
- Directed manual testing of components and websites, troubleshooting complex issues and delegating tasks to team members.

Site Scout — Founder, Solo Developer

SaaS Company — November 2022 - Present

- Created a robust and scalable architecture, incorporating industry best practices and modern technologies.
- Engineered an intuitive and streamlined user interface, enhancing user experience by simplifying intricate tasks.
- Enabled secure user authentication with Firebase Admin, supporting seamless login and registration across devices and platforms.
- Integrated webhooks to handle secure payments and subscription management systems.
- Integrated webhook integration for secure payment and subscription management systems.
- Implemented tiered access, granting premium features to paid users while unpaid users experienced compelling trials.
- Utilized Firebase Firestore to track subscription status, optimize data retrieval, and enhance user engagement with live updates.
- Utilized the OpenAI Node SDK for advanced AI features and developed a prompt generation system to enable seamless user interaction.

Freelance — Web Developer

Website Design and Development — November 2022 - February 2023

- Engaged in direct client communication, understanding their

SKILLS

Proficient in HTML, CSS, and JavaScript.

Strong knowledge of React, Vue, Svelte and other modern front-end frameworks.
